

HARE (*Lepus Europaeus*)

Hunting season 01.11 – 31.01

It is found everywhere between the under-Carpathian hills and the seaside.

It is attached to its birth place, so it does not stray further than 3 - 4 km.

The numerous hare population (in the areas where we organize the hunting) guarantees the shooting of a minimum 2-4 hares / day / hunter.

The hunting methods are leaping, with a hunting dog, or chasing within organized group hunting. We recommend using shotgun and small shot cartridges no 2-4 (3 - 4 mm).

3 days hunting / 4 nights accommodation

<i>Price\hunter</i>	<i>EURO</i>	<i>Additional Day</i>
