

## QUAIL (*Coturnix coturnix*)

Hunting season 15.08 – 31.12

It is a bird of passage in Romania that arrives in April and leaves in December. Its habitat is represented by plain fields, tiled agricultural lands, and hills. In the area where we organize the hunting, this species is very abundant.

It is easy to hunt, thus it is recommended that the number of pieces shot should be within the normal limits (no excesses), in order to protect the growth of the number of the birds of this species. To use shotgun with small shots no 7-11 (maximum 2.5 mm).
